JUNE 2024

Leader's Message

National Safety Month, celebrated every June, highlights the crucial role of safety on our job sites. At Landesign, we're excited to embrace this year's theme, "Safety is Everyone's Business." We hold regular safety meetings with our teams to reinforce safe practices and ensure all equipment is operated correctly and securely.

In 2021, Landesign took a big step forward by launching a new Landscape Safety Training Program and appointing a dedicated safety and training officer. Our employees receive thorough training on every piece of equipment used on your property, including proper operating techniques and hazard awareness. The program includes comprehensive video lessons and a practical skills test supervised by their manager.

Additionally, this Spring we implemented a new daily safety routine called "Smart Start." Each morning, our crews begin the day with a series of stretches designed to prevent strains, sprains, and other common injuries. Not only does this help prevent injuries, but it has also become a great way for teams to bond. The "Smart Start" routine has fostered a sense of camaraderie among team members while promoting physical well-being and a culture of safety.

At Landesign, safety is our top priority. We are committed to protecting our employees, customers, and the community.

Join us in celebrating safety this month and every month!

With Appreciation,

JJ Fitzgerald
